

Making Cloud Technology Easy To Implement

We have over 30 years experience with Information Technology and have led mission critical technology transformations for some of the world's best-known brands.

Business Process Management and Strategy

The impact of COVID-19, geo-political disruptions, and climate change on customer behavior and the way we work has been sweeping and immediate. Murdock Martin Consulting provides management consulting services to define business strategies and implement business process management.

- Business strategy
- Business processes and value chains
- Customer journeys and UX
- Business process management tools

Technology Selection and Architecture

Making sense of the many cloud providers, low-code/no-code tools, hybrid-cloud, edge computing, DevSecOps tooling, and SaaS solutions is difficult. Murdock Martin Consulting provides technology architecture and computer systems design services for delivering innovative solutions that scale securely, cost effectively, and on-demand.

- Enterprise architecture
 - Cloud solution architectures
 - DevSecOps (GitHub/Azure DevOps)
- Cloud and hybrid-cloud
Azure Google Cloud AWS SaaS
- IT Service Management and Cloud Operations: ServiceNow

Software Solutions

Microsoft Power Platform

Automate business processes, build websites and applications, analyze data, and enable AI with low-code technologies

Power Automate, Power Pages, Power Apps, Power BI, Power Virtual Agents

Cloud Migration Playbook

Maximize value by solving and automating many technical and organization change management challenges of cloud migration.

SAP Business Technology Platform

Enable data and analytics, artificial intelligence, application development, automation, and integration with S4 HANA and SAP low-code technologies.
